NCR Mike Hailwood® TT

NCR is proud to announce a very limited edition motorcycle based on the most famous motorcycle victory of the millennium by Mike Hailwood when he won the World Championship at the Isle of Man TT in 1978 on a Ducati 900 NCR. To commemorate the 30th year anniversary, NCR announces a very limited edition motorcycle that incorporates the latest technology available today. The NCR Mike Hailwood* TT features a full titanium frame weighing only 5 Kg (11 lbs) and the latest Ohlins FGR900 forks to be used in MotoGP next year. Other incredible features include a F1 derived billet crankshaft, titanium connecting rods, titanium valves, titanium exhaust and titanium fasteners. Furthermore, the wheels and all bodywork are in carbon fiber thus tipping the scales at 299 lbs (136 Kg) while producing 130 hp.

The **NCR Mike Hailwood TT** will be unveiled at the EICMA Show on Tuesday, November 4th at the NCR stand in Hall 18, D60. Present will be Mrs. Pauline Hailwood and Mr. David Hailwood (Mike Hailwood's wife and son).

Retail of 100,000€ or \$130,000 US at 1.3 exchange rate. Only 12 to be built. Visit www.ncrfactory.com for more info.

* MIKE HAILWOOD® is a trademark of the Estate of Mike Hailwood. Used with permission. For more information about Mike Hailwood, please visit www.mikethebike.com

* NCR Mike Hailwood TT officially endorsed by the Isle of Man Department of Tourism and Leisure.

* Product specifications and price subject to change by NCR at any time without notice.
